PRODUCT OVERVIEW

FlightCheck is the essential tool for Print Shops, Creative Designers, Prepress Departments, Customer Service Reps and Graphics Professionals within the printing, digital print and publishing industries. This multi-award winning tool helps you prepare PDF and other documents for print or archiving. It provides complete quality control, saving time and money by avoiding re-work. FlightCheck helps you create excellent PDF files for brochures, advertisements, books, business cards, packaging materials, labels, calendars, catalogs, billboards, manuals, newspapers, and virtually any document.

FlightCheck provides complete preflight for digital files, then warns you about potential printing problems, while guiding you directly to them for repair. This application issues a complete analysis of the print job highlighting potential errors, item by item, including improper page size, missing fonts, wrong colors, transparency of spot colors, incorrect image resolution and much more. FlightCheck will then package and compress all required elements of the print job, including, colors, fonts and images to insure files print as expected. Try a FREE, full-working, 30-day demo download, today!

FlightCheck for macOS is available as a 12-month Subscription or Perpetual version and can be purchased direct, online, or via a local reseller.

FLIGHTCHECK®

Preflight PDF and Desktop Publishing Files for Print and Archiving

BENEFITS

- Preflights and Previews both PDF and native DTP files, such as Adobe InDesign, Adobe Illustrator, Adobe Photoshop, QuarkXPress, and more.
- Saves time and money by eliminating job re-prints or re-work.
- Attractive and easy to use interface with both Preflight and Inventory modes.
- Displays In-Depth Inventory with detailed File, Page, and Print information.
- Supports PDF standards, such as PDF/X-1a, PDF/X-3, and PDF/X-4.
- Batch Packages and Preflights a variety of file types in one session.
- Built-in automations to streamline print, publishing, and archiving workflows.
