PRODUCT OVERVIEW

PDFMarkz® is Markzware's next-gen PDF conversion and preview app, which allows you to take control of your creations. It unlocks years of work in PDF files, giving you the ability to preview and convert documents to your desired editing app. With a single click, open documents in Adobe InDesign, QuarkXPress, Affinity Publisher, and other apps. PDFMarkz also converts PDFs to formats like IDML, TIFF, PNG, JPEG, and GIF. Automation Preferences can auto-export and open the file in your chosen desktop publishing application.

Double click a PDF file in Finder to open it in InDesign, QuarkXPress, Affinity Publisher, or another chosen app. The Document Inspector provides an overview of file type, version, size, creation/modification date, page/spread count, page size, font, color, and image data. Start now and reduce time spent on PDF conversions.
